$\qquad$ Last Name: $\qquad$ Your School: $\qquad$ MPS ID: $\qquad$

1. List up to 15 individuals you have communicated with about mathematics education in the past several months. Please provide the first and last name of each individual. For this survey, communicated with means any form of communication such as face to face, notes, email, or phone. Mathematics education means anything having to do with math curriculum, assessment, classroom teaching, or related topics.
2. Indicate whether this person works at your school.
3. Indicate the role of each individual using the numeric codes provided. Please choose from among the list of roles provided below.
4. For each individual you list, indicate the frequency of communication about math by placing an " X " in the appropriate column. Choose only ONE column.
5. For each individual you list, indicate the extent of collaboration about math education by placing an " X " in the appropriate column. Choose only ONE column. For this survey, collaboration is defined as "actively working together to solve a problem, complete a task, or engaging in some type of project."
